

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, September 30, 2018 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial Attack Activity:	Light (45) new fires
New large incidents:	3
Large fires contained:	3
Uncontained large fires:**	16
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5

Nationally, there are 48 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Great Basin Area (PL 3)

New fires:	9
New large incidents:	3
Uncontained large fires:	7
Type 1 IMT's committed:	2
Type 2 IMT's committed:	2

Roosevelt, Bridger-Teton NF. IMT 1 (Demasters). Thirty-two miles south of Jackson, WY. Timber and brush. Active fire behavior with group torching, spotting and crowning. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

Pole Creek, Uinta-Wasatch-Cache NF. IMT 1 (McGowan). IMT is also managing the Bald Mountain incident. Twelve miles northeast of Nephi, UT. Timber. Moderate fire behavior with creeping and smoldering. Numerous residences and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Bald Mountain, Uinta-Wasatch-Cache NF. Seven miles northeast of Mona, UT. Timber and brush. Moderate fire behavior with creeping and smoldering. Numerous residences and transportation and energy infrastructure threatened. Evacuations, road, area and trail closures in effect.

Mirror Lake Complex, (2 fires), Uinta-Wasatch-Cache NF. IMT 2 (Roide). Thirteen miles east of Kamas, UT. Timber, brush and light logging slash. Active fire behavior with short-range spotting, uphill runs and torching. Structures threatened. Road, area and trail closures in effect.

Marten Creek, Bridger-Teton NF. IMT 2 (Rohrer). Thirteen miles east of Afton, WY. Timber and brush. Minimal fire behavior. Road, area and trail closures in effect.

* **Paddock**, Boise District, BLM. Eighteen miles northeast of Payette, ID. Brush and short grass. Moderate fire behavior with running, creeping and smoldering. Sage-grouse habitat threatened.

* **Yellow Mountain**, Bridger-Teton NF. Thirty-six miles northwest of Dubois, WY. Timber and short grass. Active fire behavior with short crown runs, uphill runs and group torching. Structures threatened. Last narrative report unless significant activity occurs.

Predictive Service Discussion: Today will be a day of transition as several systems begin to impact the West, bringing moisture. The first system will be the remnants of the previous day's system that will move into the Northern Rockies. A second system will move southeast into Washington state in the afternoon, bringing scattered showers from British Columbia. A third system will approach the coast of northern California, producing a slight off shore flow near Eureka. Finally, the remnants of Hurricane Rosa will begin moving into the Southwest in the afternoon, bringing widespread moderate to heavy rainfall. In the East, a flattened Bermuda High will linger over the Southeast, keeping the region warm and dry; while a passing cold front moves east across the Great Lakes Region, bringing breezy winds and widespread showers.

LEAD Time

Leadership Environment

Leadership Category

Leadership is defined as the act of influencing people in order to achieve a result. The leadership environment is made up of critical elements that a successful leader must consider in planning for effective action. Those critical elements are:

- **YOU** – the leader, who is ultimately responsible for all action and results.
- **YOUR PEOPLE** – those that you are responsible for.
- **SITUATION** – comprised of the many unique variables that influence a leader's decision such as objectives, conditions, resources available, organizational influences, and others affected by the action.
- **CONSEQUENCES** – the short and long-term effects of your actions.

Leaders constantly assess the elements of the leadership environment and adapt accordingly. Successful leaders understand the interplay of these variables and demonstrate flexibility in selecting appropriate leadership tools and techniques as a situation changes.

Discussion Points:

- Each mission has a different level risk. Discuss how the four leadership environment elements affect perceived risk in a changing environment.
- Each situation is unique and changes over time. Discuss what changes you might predict in your environment today.
- Discuss what leadership tools might be appropriate for those predicted changes today.
